

## JND433 – Infinity Panels & JND434 Daisy Circle & Leaves - by John Lockwood

Instructions by June Smith

John has created a 'You Tube Video' dated 14<sup>th</sup> February 2024, using the new JND433 Infinity Panels and JND434 Daisy Circle & Leaves die sets, where he demonstrates how to make a card using the afore mentioned die sets. I would advise that you visit it as well as following these instructions.

**June's Tips:** This applies to any die, place your pieces onto your cutting plate at an angle, this helps to cut the dies in one pass. Also use your glue eraser to remove any unwanted marks.

### Materials

6" x 6" White Top Folding Card Blank  
JND433 Infinity Panels Die Set (6)  
JND434 Daisy Circle & Leaves Die Set (2)  
JND442 Modern Sentiments Stamp Set  
Essential Coconut White Card  
Essential Grey Card  
Stamping Press  
CA Glue Glaze  
Versafine Smokey Grey Ink Pad  
CA Clear Dew Drops  
A5 Die Cutting Machine  
2mm Foam Tape  
Craft Kit

### Method:

- Cut a piece of Coconut White card to 5" x 5". Then take your Modern Sentiment stamp (Hope today is full of Surprises and all your Dreams come true) and ink this up with 'Versafine Smokey Grey' ink pad - this is because we are not using any black on this card, so we use a subtle colour ink – stamp this along the bottom right-hand corner of the card. Then bring in the Infinity Panel and using your grid lined mat (or similar) add this 1" in from the left-hand side of the card, tape it down well, making sure that it is completely straight along the top and bottom, we really don't want the die to move – run this through your die cutting machine.

- Remove the die from the card, turn it over and add 3 strips of 2mm foam tape down the left, middle and right-hand sides.
- Cut a piece of coconut white card to 5½” x 5½” and a piece of Grey card to 5⅝” x 5⅝” and layer these up onto your top folding white card blank. Remove the yellow backing tape from the front of your card, add a few dabs of wet glue to stop the static and also give you a little bit of wiggle room should you need it, add this onto the mat and layers.

- John then has some waste pieces left over from the new Daisy Circle & Leaves die set which have been coloured with the new Pearl Fusion Inks, Coral, Flamingo on the flowers and Spearmint & Verdant on the leaves, (see separate you tube for this). The easiest way to add these onto the card is to take your 'Easy Squeeze Super Tacky Clear glue' and squeeze a blob of it onto your mat, then using a pair of pointed tweezers pick the leaves and dab it in a couple of places on the back of the leaf, add these onto the card. Add a clear dew drop into the centre of each flower, then pick up the flower with the pointed tweezers, dip it into the wet glue and add onto the leaves. It is so easy with the pointed tweezers rather than your fingers because you can hold each petal and just dab the back of it into the wet glue.
- There are also some little pink dots from the die cuts, and we will add 6 dabs of glue glaze arranged around the display, use a pick-up tool to pick each one up and add onto the glue glaze, these will stick almost immediately as the glue glaze is so strong.

Your creation is now complete. I hope you have enjoyed these instructions.
