

JND446 Birthday Sentiments - by John Lockwood

Instructions by June Smith

John has created a 'You Tube Video' dated 18th April 2024, using the new JND446 Birthday Sentiments Die set, where he demonstrates how to make a card. I would advise that you visit it as well as following these instructions.

Information:

In the JND446 Birthday Sentiments you will get 'With Love', 'Best Wishes', 'Celebrate' & 'Happy Birthday'. You also get a stitched dot cutting die again that will cut a stitched dot aperture that can go behind the sentiments to layer them up. Both sets are interchangeable with this last die. Also, each one of the dies has been designed to cut exactly 4" across.

In the JND447 die set you will get 'Happy Anniversary', 'With Sympathy', 'Get Well Soon', & 'Congratulations'. You also get a plain outside cutting die to cut an aperture to go behind your panel.

4 examples of 5" x 5" cards using the set, but we can also use the dies for a different way.

Materials

5" x 7" Premade Card

JND446 Birthday Sentiments Die Set (5)

Essential Coconut White Card

Copper Satin Card
A5 Die Cutting Machine
Dew Drops
Glue Glaze
2mm Foam Tape
Craft Kit

Method:

John has got a pre-made card which has not been finished off. This card was using the Tempus Fugit die set, White and Copper Satin card. We want to add a sentiment onto it.

- Take a scrap piece of Coconut White card. Take a long piece of pink tape and pick up the 'Happy Birthday' die and add this over the plain cutting die from this set add this onto the white card and put onto your cutting place, what you can also do is take the Stitched Outline die from JND447 and add that onto the Satin Copper (or might be Rose Satin Copper), run both pieces through your die cutting machine. Always put the dies back onto your magnetic sheet. Take a pokey tool and press out the waste from the letters. Then take your glue glaze and tap it over some of the outline and letters, then add this onto your copper strip. Add a little bit of foam tape onto the back and adhere onto the front of your card.

Your card is then ready to add some flowers or other sort of decoration onto it. A very easy and simple card to make. You could batch make this card and just leave the sentiment off until you know which one to use on the front.

Your creation is now complete. I hope you have enjoyed these instructions.
