

JND447 Get Well Sentiments - by John Lockwood

Instructions by June Smith

John has created a 'You Tube Video' dated 18th April 2024, using the new JND447 Get Well Sentiments Die set, where he demonstrates how to make a card. I would advise that you visit it as well as following these instructions.

Information:

In the JND447 die set you will get 'Happy Anniversary', 'With Sympathy', 'Get Well Soon', & 'Congratulations'. You also get a plain outside cutting die to cut an aperture to go behind your panel.

In the JND446 Birthday Sentiments you will get 'With Love', 'Best Wishes', 'Celebrate' & 'Happy Birthday'. You also get a stitched dot cutting die again that will cut a stitched dot aperture that can go behind the sentiments to layer them up. Both sets are interchangeable with this last die. Also, each one of the dies has been designed to cut exactly 4" across.

Materials

5" x 7" Top Folding Card
JND447 Get Well Sentiments Die Set (5)
Essential Coconut White Card
Essential Wisteria Card
A5 Die Cutting Machine
3 Wisteria Scarlett Flowers left over from another project
Clear Dew Drops
Glue Glaze
2mm Foam Tape
Craft Kit

Method:

- Cut a piece of Coconut White card to 4" x 6" and lay this out onto your lined mat, tape down your 'With Love' die at approximately 1½" up from the bottom and run this through your die cutting machine. Carefully remove the die & poke out all the unwanted pieces. If there is any sticky on the card from your tape just use a Crafts Too Glue Eraser and they will come off easily.
- Cut a piece of Wisteria to 4" x 6" and you could either flat mount this behind or we will add foam tape onto the back of the white to give it a bit of depth, notice in the photo below that we have added the foam tape across the top and bottom of the top panel and 2 pieces on the bottom panel, any excess pieces can go into the middle. Remove the yellow backing, add a few drops of wet glue to stop the static and add onto the front of your Wisterial card.

- Bring in your 5" x 7" top folding white card – you can make your own by getting a top folding 10" x 7" card blank and cutting it down at 5". Add wet glue to the back of the Wisteria & add this onto your card base.
- To decorate this card John has taken some Wisteria flowers left over from another project. Basically, cut out the Scarlett Flower Plate from Wisteria card, you get 12 flowers from the one plate, then ink the very ends of each petal with Versafine Vintage Sepia, fold the ends of each petal in half (a mountain fold), add glue glaze into the middle of one and offset the same size petal on the top so it looks like a cross. Add glue glaze into the middle and add a dew drop or pearl into the middle and fold the petals up. There are already instructions within the group of how to make these.
- John has used wet glue onto the back of the flowers to add them onto the card front. Here is a beautiful card made by Lesley Lakin using the dies.

Your creation is now complete. I hope you have enjoyed these instructions.
