

JND600 Ravello – Simple Masculine Hand Made Card – 12 September 2026 - by John Lockwood

Instructions by June Smith

John has created a 'You Tube Video' dated 12 September 2026, using JND600 Ravello, and JND602 Birthday Numbers, where he demonstrates how to make this Masculine card above. It is a great card for kids to make, with supervision of course. I would advise that you visit it as well as following these instructions.

Information:

JND600 Ravello Die Set (17)

Die no: 1 - 6½" x 6½" - Infinity

Die No: 2 – 5¼" x 5¼" Outside Ravello die which just cuts out the pattern

Die No: 3 – 4⅛" x 4⅛" Stitched Circle die

Die No: 4 – 3⅞" x 3⅞" Plain Circle cutting die

Die No: 5 – 3⅝" x 3⅝" Circle with the Ravello Star attached

Die No: 6 – 3⅛" x 3⅛" Medium Cutting Star

Die No: 7 – 2½" x 2½" Smaller Cutting Star with a Ravello Flower attached

Dies Nos: 8-11 – 1½" x 1½" - 4 Pointed Stars

Dies Nos: 12-15 – 1" x 1" - 4 Smaller Decorative Stars which fit inside dies 8-11

Die No: 16 - 1⅞" x 1⅞" Outside Ravello Cutting Die

Die No: 17 – 1⅝" x 1⅝" Inside Ravello Cutting die which fits inside die no: 16

These are the 8 dies we will be using today.

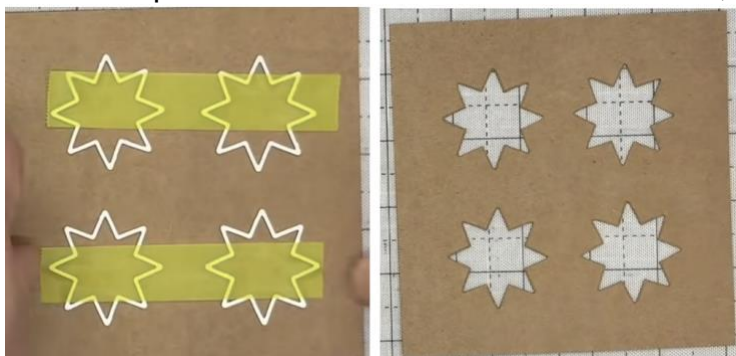

Materials:

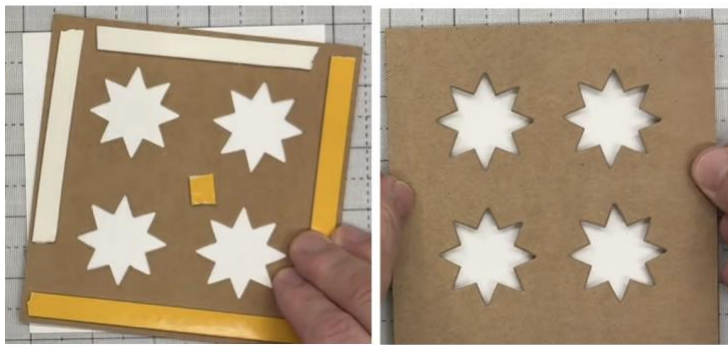

6" x 6" Commercially Bought - Top Folding Kraft Card
JND600 Ravello Dies (17)
JND602 Birthday Numbers Die Set
Coconut White Card
Craft Card
Co-ordinations – Red Card
3M Permanent Spray Adhesive, Display Mount
CA Black Stick on Pearls in various sizes
Die Cutting Machine
Foam Tape (10mm wide x 2mm deep)
Craft Kit

Method:

- Cut a piece of Craft Card to $4\frac{3}{4}$ " x $4\frac{3}{4}$ ", then bring in the 4 outside dies and using the measurements on the Multi-purpose Craft Mat tape the dies down evenly, then run through your die cutting machine. You then have the card below. Keep the 4 stars because we are going to use one on this card and keep the rest in a little box until I need them, so we don't waste anything.

- Then take a piece of Coconut White card cut to the same size $4\frac{3}{4}$ " x $4\frac{3}{4}$ ". Then turn the Craft card piece over and add foam tape onto the back, remove the backing and add this onto the White card.

- Bring in your scrape piece of deep red card and tape down the 4 inside stars then run through your die cutting machine, we will need another of the red stars so again cut out a set of 4 and keep the remaining 3 stars in a box until you need them.
- For speed John is adding the red stars onto his spray box and add 3M Permanent Spray Adhesive, Display Mount onto them, then add a red star into each of the apertures.

- Bring in your 6" x 6" craft card which you have purchased and add a layer of red card, another layer of craft card, then add your main piece onto the front. Then bring in your pack of black pearls which have different sizes, and using a pair of tweezers or similar, add a mini black pearl into the centre of the 4 stars. John has then made a little banner to go across the front which has craft card behind with a scrap of Coconut White card on the front and the HAPPY BIRTHDAY cut out of the same red card on the front. Then added foam tape onto the back, remove the backing and add this across the front of your card.

- Then take the star you cut earlier and add a black pearl into the centre of it, add a little bit of foam tape onto the back, remove the backing and add this on the top right corner of the Happy Birthday banner.

Your creation is now complete. I hope you have enjoyed these instructions.
